EDUCATION

2025 - Ongoing
IT- Högskolan, Sweden
- AI and machine learning, 400 credit

2024
IT- Högskolan, Sweden
- Azure and DevOps development, 60 credit

2023 - 2024
Lexicon IT-Proffs, Sweden
- System Developer .Net

2021 - 2022
Högskolan Skövde
- Cognitive neuroscience
  - Master – 27.5 university credit.
    - Inkluderar 2,5 credit in Matlab

2009 - 2014
Payam Noor University
- Psychology
  - Bachelor - 174 university credit

SKILLS

- C#, Python, Javascript, React
- HTML, Css, Bootstrap, UserExperience, MudBlazor
- SQL server, Database Modeling, Entity Framework Core, Jira, Scrum master.
- System testing, Unity, Unit test, Azure, Agile Networking, Azur Web Apps, CI/CD med Azur DevOps, Pipeline.
- Blazor WASM. ASP .Net Core, MVC, Razor Pages, Web API, Open API.
- Swagger, Identity server, HTTP Client, Authentication.

SUMMARY

System Developer with hands-on experience in Agile teams, DevOps practices, and fullstack development. Took initiative in coordinating sprints, backlog refinement, and team communication during internships. Skilled in building responsive web applications using C#, JavaScript, MudBlazor, and React. Experienced in CI/CD pipelines with Azure DevOps, unit testing, and system testing to ensure code quality and reliability. Familiar with Azure services including Web Apps, SQL Database, Application Insights, and Service Bus. Committed to delivering clean, maintainable code and supporting team growth through agile collaboration.

EXPERIENCE

Siemens (Internship) januari 2025- Jun 2025
System developer & Devops engineer

- Contributed to both development and deployment workflows, combining backend coding with DevOps automation.
- Built and maintained CI/CD pipelines using Azure DevOps to streamline testing and deployment.
- Wrote unit tests to validate backend services and collaborated with QA engineers on system testing.
- Migrated frontend components from React to Blazor using MudBlazor for improved performance and maintainability.
- Integrated REST APIs using Refit to ensure smooth communication between frontend and backend.
- Participated in agile ceremonies including sprint planning and retrospectives to support team collaboration and delivery.
- Gained practical experience in cloud infrastructure, Azure Web Apps, Azure SQL Database, Application Insights, and Azure Service Bus.

PraktikerTjänst (Internship) Februari 2024- Jun 2024
Sysytem Developer

- Took initiative in coordinating sprint planning and backlog refinement for a cross-functional team of interns.
- Facilitated communication between the development team, product owner, and stakeholders from both the restaurant and finance departments.
- Supported agile workflows by organizing daily stand-ups, sprint reviews, and retrospectives.
- Documented sprint goals, task breakdowns, and progress updates to ensure transparency and alignment.
- Developed a user-friendly interface using MudBlazor and integrated REST APIs with Refit.
- Built backend services using .NET 8 and Entity Framework, and managed SQL Server databases with Code-First Migration.
- Participated in system testing to validate functionality and performance across the application.
